Jehovah's Witnesses Plan For 1,000 at Convention

Ann Rainbow, City supervisor of Jehovah's witnesses, announced last night to the local congregation that a three-day convention has been arranged in Lake Worth.

"The program," Rainbow said, "arranged by the Watchtower Bible and Tract Society will feature two traveling representatives from headquarters in New York, George Hewitt, Circuit supervisor or 16 congregations in the South Central section of Florida, and B. E. Giffin, District supervisor of the Southeastern United States.

"The assembly," Rainbow continued, "will begin December 22 at 6:45 p. m. and end Sunday, December 24 at 6:00 p. m. A special feature of the program on Saturday is the baptizing of new ministers in

water. This will be handled by the District supervisor. Baptism for us has a deep meaning, in fact a symbol of our dedication to do the complete will of God. This means activity, not just a hearer or sinner in a place of meeting, but like Jesus, taking the initiative to spread the teachings of the Bible."

An assembly kick-off meeting was held at Clewiston, Florida to organize 23 departments for the estimated 1,000 delegates for the December assembly. These include Boombox to make sure all have a place to stay. Information, Ushers, First Aid and Cafeteria Departments. George Hewitt presided over the meeting according to Rainbow.

The assembly site will be at the John J. Leonard Jr. High School on 10th Avenue.

-GOD WITH US-

His name shall be called Emmanuel (which means, God with us).—Matt. 1:23

Olin Stockwell, once a missionary in China, tells a story of a Christian in the northwestern part of that country who continued to communicate with Christians in other parts of the country. One day his friends were saddened to get a letter which read: "We do not read the Bible anymore; it is capitalist propaganda. We do not pray anymore; that is wishful thinking. We do not go to church anymore; that is a useless habit." Then he signed his name, but underneath his name he wrote "Emmanuel." Knowing that his letter would be read by the censors, he chose this shorthand to communicate, his faith.

"Emmanuel!" God is with us! While the outward situation may become more and more discouraging, God is with us to sustain us and renew our hope and courage. God chose the man of Jesus Christ to come among us. He divested himself of all the royal garments of divine majesty to take upon himself the ordinary clothing of our humanity. He invested himself with our flesh, our mortality, dwelling with us so that we could understand Him and be drawn to Him.

Christmas should bless us with a new consciousness of the reality of God—not as one who is only above, beyond, or beneath us—but one who is with us, Emmanuel.

PRAYER: God, how can we ever say that we do not know thee, when thou hast made thyself perfectly evident in the man Jesus? Amen.

"Mr. Quaker" Gives Address To Students

By Jim Winchester
Monday Belle Glade High School was honored to have Van Gould speak at an assembly on our American heritage, American morals and why we should be proud to be Americans.

Van Gould, better known as "Mr. Quaker" the living symbol of Quaker Oats, has traveled throughout the United States speaking at schools on these subjects for several years. "Mr. Quaker" combined reality with humor to immediately get the audience's attention and hold it throughout the assembly. He brought out some of the basic facts and problems in such a way as to bring the students to a greater awareness of world problems and help them better appreciate the fact that they are Americans.

His talk was effective mainly because he didn't preach, but instead he expressed his views of the current situation and permitted the students to reach their own conclusion. He gave neither a completely optimistic nor pessimistic view nor did he build up the free nations or cut down the communist nations, he merely gave a clear, simple and true account of matters at hand which impressed most of the students. In conclusion to his talk he read an appropriate poem entitled "I Am The Nation" by Otto Whittaker.

Several Glee Club members have been trying out for state clinic. Mr. Randy Wing seemed first soprano Marilyn Shaw and Sharon Walls, altos, Vicky Brantley, and Susie Sims.

THE Future Homemakers of America had an unusual meal for their annual Christmas Dinner. Each member brought a covered dish that was native to some foreign country. To carry out the mood Monday night, the girls also dressed in the typical costume of the country they were representing.

Library Club members worked Saturday on a rummage sale to add to their club's working funds. Outgrown clothing and no longer needed odds and ends were sold at their money making project.

Pep Club members were sold of their point system that has been set up for basketball games at the club's last meeting. President Barbara Williams said that members work on various projects during the year and they receive points for each activity in which they participate. These points determine which members get a letter at the end of the year.

The girls' last project was to present gold tie tacks to all the senior football players.

Asolo Theatre Presents Students With "Live" Elizabeths Play

Belle Glade High School Seniors along with 200 other Glades students attended the Asolo Theatre Project in Pahokee Monday.

The Asolo Theatre of Sarasota is touring Florida schools this year projecting educational enrichment through live theatre. The project consists of a morning seminar and a live afternoon play performance.

The 110 Belle Glade seniors accompanied by Mrs. Six Teets Mr. John Mayberry and Mr. Dave Gardner met with the Asolo artists and were instructed in theatrical arts in the morning.

Following a picnic lunch, a performance of William Shakespeare's Henry IV Part I was given. For many of the students this was a first time opportunity to see a live Elizabethan performance. The seniors have been studying Macbeth, Shakespeare's life and the literature of the period. This project was sponsored by the Department of Health, Education and Welfare and was planned for the Glades area by Mrs. Esther Mayfield, coordinator of Palm Beach County.

"1984" Portends Totalitarian Way of Life

By Maria Iglesias
"1984" takes place in the imaginary country of Oceania and the author describes a picture of life and thought there in that particular year.

The form of government is totalitarian and the citizens are like machines that exist without cause. The government controls everything in the country and keeps a close watch on every individual citizen.

Everything in Oceania is ultramodern. The people speak a language called Newspeak or New English. George Orwell satirizes this form of existence. He shows how the individual citizens are not allowed to think for themselves because their thoughts, actions and feelings are controlled by the government.

"1984" exaggerates the evils of a totalitarian government to make the reader realize how citizens can easily lose their democratic rights and individuality. Today, we are depending more and more on the government to work for us. If we, the citizens of today, don't wake-up we may evolve into a totalitarian society without really being aware of it. I think the author is trying to present this truth or cause in his book.

Richard S. Johnson Appointed 1968 Heart Fund Chairman

Richard S. Johnson, insurance man in West Palm Beach will be chairman of the 1968 Heart Fund in Palm Beach County.

The announcement was made Wednesday by Sen. Jerry Thomas, board chairman of the Heart Association of Palm Beach County.

"The Heart Fund Drive will be conducted in February. Community leaders will be named for both business and residential canvasses," Thomas said.

Johnson, who is with the firm of Cornelius, Johnson and Clark, Inc., owns a farm near Pahokee. He is president-elect of the local Heart chapter and a past president of the Insurance Board of the Palm Beaches.

"Great advances have been made in the treatment and prevention of heart disease," Johnson said. "Still these diseases cause \$4 per cent of all deaths in the United States. Future breakthroughs in prevention and treatment will depend on continued support from residents in this area."

The local Heart chapter reported gifts last year in the amount of \$264,333, making Palm Beach County the number one chapter in Florida.

1968 Torino 2-Door Hardtop

1968 Torino GT Fastback

Here's a Better "Catch Up" Idea:

TORINO—more car than 16 higher-priced competing models

(longer wheelbase, more room, smoother ride)

Compare sticker prices. You'll see which intermediate gives you more for your money. Torino—with a full 116-in. wheelbase and better ideas. It's a great buy any time, but even better now while your Ford Dealer's making up for lost time.

Torino—Ford's newest bright idea! Six wheelbase models, from the top of the Fairlane line. The Torino GT's—hardtop, convertible, and fastback—all come with Ford's brand-new 302-cu. in. V-8, wide-oval

tires, GT stripes, GT wheels, ventless side windows and wall-to-wall carpeting. The Torino 2-door hardtop and 4-door sedan have luxurious interiors you've never seen before in cars at this price. The Torino Squire station wagon has simulated wood paneling outside, the leathery look of vinyl inside and the convenience of Ford's 2-way Magic Doorgate.

Eight other Fairlanes—including a Fairlane 500 fastback that seats six—give you Torino-inspired styling, too. Whichever you choose—Fairlane or Torino—choose it now while your Ford Dealer is going all-out to make up for lost time.

Bureau to Survey Farm Workers

A yearly survey to determine the number of persons doing farm work for wages or salary will be taken in this area, according to Director Thomas W. McWhirter of the Census regional office in Atlanta.

The survey is done for the U. S. Department of Agriculture to get a measure of the number of hired farm workers and the amounts they are paid. The farm worker survey will be taken in conjunction with the monthly survey for the Department of Labor to provide updated figures on employment and unemployment. Census Bureau interviewers will act as fact-finding agents for both the Departments of Labor and Agriculture.

The survey is taken from a sample of 52,500 interviewed households in 449 areas of the U. S. Identify of the households.

This paper-work short-cut would not be a compromising with the intent of the law at all.

Those heretofore farmers-in-name-only, as well as the borderline cases, still could be required by the County Agricultural Zoning Board to provide considerably more information than called for on the short form.

The obviously legitimate farmer's application, filled out in a jiffy, could be processed in a jiffy. The erstwhile ex-Law, by contrast, would entangle the old Green Belt counter suit going.

The new zoning law should be appreciated by farmers in the long run, even if it causes token inconvenience.

An urbanized Legislature demanded reassurance that farmer tax benefits were conceded and received in good faith. Some of the unfriendlier reporting.

Wildlife Management Areas Seen High Kill This Season

West Palm Beach — A total of 308 deer and 212 hogs have been harvested during the first sixteen days of the 1967-68 hunting season from the three wildlife management areas of the Everglades Region, according to W. T. McBroome, Chairman, Game and Fresh Water Fish Commission.

Actual and estimated kill figures are not available from other sections because check stations are not maintained except on management areas; however, reports from wildlife officers and hunters indicate hunting success as being very good in the Big Cypress and

Turn Signal Law Still Questioned

TALLAHASSEE — In response to many inquiries still being received about the use of turn signals, Colonel H. N. Kirkman, Director of the Department of Public Safety, said today, "We encourage all drivers to signal every time they change lanes or pull out to pass another vehicle."

The veteran Florida Highway Patrol Commander said

THE FARM FRONT

ZONING LAW TO BENEFIT FARMERS

By DOYLE CONNER
Commissioner of Agriculture

Bona fide farmers stand to benefit from the 1967 agricultural zoning law — particularly if Florida's county tax assessors streamline compliance procedures for those concerned.

Under the new law, farmers must file an annual return with their county tax assessor, claiming their land's use as agricultural. If they are to maintain an ag-zoning classification for tax assessment purposes.

The application form will surely be money-in-the-bank in the same vein as the annual homestead-exemption claim form is for the homeowner in our state.

The new farm-use claim form is a new paper work for the Florida farmer.

I don't believe anyone wants to create any more red tape, but it is absolutely necessary to make the new law work.

Thus, I expect the tax assessors will generally be willing to consider a series of recommendations which I herewith offer:

(1) The assessors should follow a model reporting form designed by the State Comptroller's office. This form would occupy no more space than the size of a postcard, much as the homestead exemption claim form requires.

(2) They should mail out this postcard-size form to farmers in the manner that most do for the homesteaders.

This paper-work short-cut would not be a compromising with the intent of the law at all.

Those heretofore farmers-in-name-only, as well as the borderline cases, still could be required by the County Agricultural Zoning Board to provide considerably more information than called for on the short form.

The obviously legitimate farmer's application, filled out in a jiffy, could be processed in a jiffy. The erstwhile ex-Law, by contrast, would entangle the old Green Belt counter suit going.

The new zoning law should be appreciated by farmers in the long run, even if it causes token inconvenience.

An urbanized Legislature demanded reassurance that farmer tax benefits were conceded and received in good faith. Some of the unfriendlier reporting.

December 15 Is Deadline For Summer Head Start

Mrs. Minnie J. Minor, director of the program Head Start in Palm Beach County public schools system and its instructors are fully certified teachers of the county system. It is funded 90 percent with Federal funds, which are requested by the non-school system, through the local buildings, buses, planning personnel and accounting purchasing systems required to operate the program.

County Supt. Fulton has appealed to church Civic and business leaders to help seek out and enroll these pre-school children in the program.

Palm Beach Junior College To Hold Christmas Exhibition

"Prints for Young Collectors," the third annual Christmas-time exhibition of etchings, lithographs and woodcuts will take place December 4-19 at Palm Beach Junior College in the Humanities Building.

Some of the greatest names in art will be represented in the show including such modern masters as Chagall, Altman and Coughlin.

"All of the prints in the show are moderately priced (from \$4 to \$48), to enable the young collector to begin or add to a collection of original works by famous artists," according to Leonard Farley, the PBJC Art faculty.

"Only with these strictly limited and numbered reproductions can the price of original work by great artists be brought down to the average person's ability to pay," Farley said.

The works are in all styles from traditional to modern. Farley said.

The exhibition is on loan from the Roten Galleries, Baltimore, which has an international reputation for fine print collections.

The show is open to the public during school hours, day and evening, Monday through Friday and there is no admission charge.

Mrs. Loretta Roseman was able to resume her studies at Palm Beach Junior College, after being shaken up and having cuts and bruises on her right leg in a school bus accident last Wednesday.

GLADES RESIDENTS

You have the beginning of the most complete and beautiful Cemetery in this entire area, BUT we need your help. We started in 1959 with Mausoleum only, but now offer Ground Burials or Westminster Crypts. These are Concrete Vaults placed on pilings ABOVE the present ground level, then 2 feet of soil and grass placed on top of the Vaults, making for the highest, dry ground burial possible, at LOW prices and terms.
